

October 10th, 2024

Professor Krzysztof Sobczak
Director of the Institute of Molecular Biology and Biotechnology

Professor Jarosław Poznański
Director of the Institute of Biochemistry and Biophysics PAS in Warsaw

Dear Professor,

with a great pleasure I would like to express my sincere wishes and congratulations on the occasion of the 70th anniversary of the Institute of Biochemistry and Biophysics PAS in Warsaw.

The Institute is a key scientific unit on the research map in Poland in the field of biochemistry, molecular and cellular biology. I am also convinced that your achievements are an important example for the entire research community in Poland of how to conduct excellent science, how to organize research and how to publish successfully obtained results. I would just like to mention the importance of the Institute as irreplaceable source of radiolabeled ATP, mainly in the 1980s, and the excellent proteomics service, which was used by almost all biologists in Poland.

I wish you excellent research and implementation achievements. I express my hope to continue the good and fruitful scientific collaboration between our institutes.

On the occasion of the anniversary, I wish all Employees and Students of the Institute further successes and prosperity in their professional and personal life.

On behalf of all colleagues from the Institute of Molecular Biology and Biotechnology of Adam Mickiewicz University in Poznań,

Krzysztof Sobczak
